OGL at Kaiser Permanente

Feature	Description	Usage
Process Guides	Visually walk users through a process, providing step- by-step guidance, to help through a task. For example, guide users through the process of submitting an expense report and enforce correct fields are completed. They can consist of the primary guide and guides that branch off from it.	339
Smart Tips	Provide context-sensitive help, hover text, or supplemental information to form fields, buttons, labels, and other UI elements	56
Message Guides (Splash Tips)	Broadcast message announcing new features and functions, welcome new users and inform them of upcoming events. Message Guides can appear automatically to specific users, and for a given duration. For example, telling users about a new application and provide a video users can watch to learn more	53
Display Groups	Organize and present content in the OGL information icon by using the display group contact by module/process area or any other suitable category	190
Task Lists	Group process guides together into clear task list informing users in what order they need to complete processes.	5
Miscellaneous	Supports the creation of product tours, rich media guides, beacons , invisible Smart Tips and links to additional content	✓
Analytics	Allows clients to filter and report on OGL metric information. For example, to report on usage of the OGL content and other linked content	✓
Launchers	Automatically launch OGL items based on where the users is in the application and what screen element they interact with. For example, launch a process guide or message whenever a user creates a requisition. This informs the user of policy changes or compliance actions	13

Insights

OGL

State of ND OGL Implementation

- Looked at OGL as a replacement for UPK
 - Needed OGL in all pillars (Portal, HCM, FSCM, ELM)
- Worked with SpearMC to create guides
 - Starter Kit (100 guides)
 - Additional Guides
- Soft OGL Implementation in April 2023 with PT upgrade
 - Beacons, Messages and Smart Tips (no Process guides)
- Published OGL guides in September 2023
 - Role Base access of Guides was key
- Updates and additional guides publish monthly

OGL Functional FTEs

- OGL Functional Resources are NOT dedicated to OGL
- Functional FTE count is who learned to create guides
- Same Functional FTE who is coordinator, is counted in HCM and ELM

State of ND OGL Activity

Panelist

ABOUT OGL

What is a Digital Adoption Platform

What is a Digital Adoption Platform

A digital adoption platform (DAP) is no-code software that integrates completely with applications in order to help the user learn the application. Digital adoption platforms use in-app guidance such as walkthroughs, task lists, smart tips, self-help menus, and more to guide the user through every aspect of an application. This empowers organizations to find true ROI of their internally-used software applications and digital transformation, onboard users and customers to their custom apps, understand how employees and users are adopting and engaging with applications, and create a more intuitive technology experience for their employees, customers, and users.

What is Oracle Guided Learning (OGL)

1 Real Time

Real time guides that show users how to enter transactions that may be complex or rarely used in the system

2 Faster time to productivity

Allows for training as you go. Learn how to do things at the time rather than learning the just in case situations

3 Analytics

Find out what guides are being used and what transactions users are needing guides to get through

What is Oracle Guided Learning (OGL)

In-application guidance to accelerate your Oracle enablement

Oracle Guided Learning delivers immediate value throughout the entire life cycle and provides benefits that enable you to focus on your priorities

- Immediate **productivity** from day one
- Reduces adoption costs over software term
- Easily configured and **personalized**
- Easily maintained and updated
- Learning and guidance **in the flow of work**, converging learning and business process docs
- **Deployment flexibility**: with managed service and/or self-service options
- Initially developed to support Oracle SaaS Applications. Now supports PeopleSoft.

What is Oracle Guided Learning (OGL)

Accelerate time-to-competency during implementation, onboarding, and role changes

Users enabled through just-in-time, context-sensitive learning that is personalized for each role and your organization

Fewer support calls and lower costs - analytics to consistently optimize usage/adoption

Ensure compliance by maintaining guided material to only display the most current processes/procedures

Manage Change Communications around upgrades, process, and policy changes

of employees prefer to learn at work

of employees prefer to learn at their own pace

of employees prefer to learn at the point of need

What is Oracle Guided Learning (OGL)

The Oracle Guided Learning application includes a Content Editor and Analytics.

- Each Content Item is shown as Tile (e.g. One tile = One Guide in PeopleSoft)
- Content is linked to a PeopleSoft environment. One OGL application can manage all PeopleSoft environments.
- Content is Published from a development environment into a “production” environment (could be a Non-Prod Training Environment).
- Steps are captured with a number of options embedded

What is Oracle Guided Learning (OGL)

The Oracle Guided Learning application includes a Content Editor and Analytics.

- Dashboards provide real time Analytics into the use of the OGL guides
- Can be narrowed based on specific guide(s), Date Range, or User
- Provides PeopleSoft Administrators ability to link support tickets to training guides (lacking or insufficient)

The screenshot shows the Oracle Guided Learning Analytics Dashboard. The main dashboard includes a 'GUIDE RUNS' line chart and a 'GUIDE DATA ANALYSIS' table. A modal window titled 'Report for Kaiser Development A' is open, showing various filters and a table of guides.

Step Guides

- A Step-by-Step guide that walks a user through a process. Built in by default
- Replicates “See It!”
- Replicates “Print It!”
- Adds “Email It” – Can be used by Support Personnel to send a guide to a user.
- URL’s can be captured and presented on an internal site

The collage illustrates the OGL workflow: a video guide, a screenshot of the Oracle Manager Self Service interface, a print dialog, and an email client window showing the 'Send' button and the subject line 'Step Guide'. The email body contains a link to an OGL step guide.
