Agenda

PeopleTools
Fluid UI Development

2-Day Course

SPEARMC IS NOW MYTHICS

Fluid UI Development

The PeopleTools Fluid User Interface Development course is geared toward developers, architects, portal designers, and business systems analysts interested in learning the building blocks of developing fluid applications for PeopleSoft. Expert instructors will cover a Fluid UI overview and discuss Fluid page layouts, Fluid tiles and navigation, Fluid search pages, administration, and cascading Stylesheets. You will gain a deep understanding of Fluid UI via hands-on exercises and workshop-based lectures.

Introducing PeopleSoft Fluid UI
