

PeopleSoft 9.2 Customer Contracts

Financial Supply Chain Management (FSCM)

Developed for implementation team members and functional end users, PeopleSoft Contracts 9.2 training quickly introduces students to the set-up considerations, configuration, and transactional processing components of the Contracts module. Through scenarios, real-world experiences from implementers, and hands-on activities, students gain an understanding of how to establish process and report on transactions.

Prerequisites:

- PeopleSoft 9.2 Foundations (FSCM)

Contracts Module Overview

- Contracts Administration Business Process
- Life-in-the-Day of a PeopleSoft Contract
