

PeopleSoft 9.2 nVision Reporting

Financial Supply Chain Management (FSCM)

Designed for developers, analysts and system admins, PeopleSoft 9.2 nVision training introduces students to the PeopleSoft application nVision tool. Through scenarios, real-world experiences from implementers, and hands-on activities, students learn how to develop new and modify existing nVision reports.

- This course presents and demonstrates selected PeopleSoft 9.2 Financials modules and concepts.
- This class is not required but is recommended for anyone who is completely new to using PeopleSoft.
