Agenda

PeopleTools Delta 8.59-8.62

1-Day Course

SPEARMC IS NOW MYTHICS

PeopleTools Delta 8.59-8.62

This one-day PeopleSoft PeopleTools Delta coursefocuses on the most important differences between PeopleTools 8.59 and 8.62 from a developer and technical administration perspective. Using Oracle's Cumulative Feature Overview and direct system comparison analysis, the class highlights key enhancements, updated functionality, and new capabilities impacting development, administration, lifecycle management, reporting, and the user interface.

Throughout the course, students will review live demonstrations and participate in guided hands-on activities within a PeopleTools 8.62 environment to explore selected enhancements and understand how these changes impact real-world development and administration practices..

By the end of the course, attendees will have a clearer understanding of the technical evolution from 8.59 to 8.62 and be better prepared to support, develop, and administer modern PeopleSoft environments

This course is intended for:

- PeopleSoft Developers
- Technical Administrators
- System Administrators
- Technical Analysts
- Support Teams maintaining or upgrading PeopleTools environments

Chapter 1: Delta Overview

- User Interface

Chapter 2: Development

- Application Designer
- Application Engine
- Fluid
- Component Interface
- PeopleCode

Chapter 3: PeopleSoft Pure Internet Architecture

- Portal
- Search Technologies
- Process Scheduler
- Performance Monitor
- Integration Broker
- Data Management
- Security

Chapter 4: Lifecycle Management and Administration

- Data Mover
- Application Data Sets
- Change Assistant
- Update Manager
- System and Server Administration
- Usage Monitor
- Test Framework

Chapter 5: Reporting Tools

- BI Publisher
- SQR
- Query
