

PeopleSoft Supplier Contract Management

AN EASIER, ENHANCED SCM EXPERIENCE

Oracle offers a robust Supply Chain Management (SCM) solution within PeopleSoft, so why isn't it widely adopted? Because most customers find the delivered business solution doesn't fit their needs and the process is out of order. Fortunately, SpearMC has developed a solution.

Leverage our bolt-on solution to bridge SCM's gaps and facilitate the supplier contracting processing with end-to-end, automated processes.

Deploy PeopleSoft Supplier Contracts with SpearMC to:

- Drive organization-wide consistency in legal document compilation
- Use approved legal clause libraries maintained by clause librarians
- Integrate fully with Microsoft Word, Adobe Acrobat, DocuSign, and/or Adobe Sign
- Enhance visibility on total contract vs. non-contract spend
- Automate pre-determined collaborators, approvers, and signers, both internal and external

Email info@spearmc.com or call 866-SPEARMC for more information.

WHY USE SPEARMC'S SCM SOLUTION?

- Streamline contract requests to initiate from a common starting point
- Automatically link the "Purchasing Contract" with legal documents prior to negotiation and finalization
- Allow initiation of contract request prior to supplier onboarding
- Can be integrated with Supplier Onboarding through delivered Supplier Portal
